

INTERN PUBLICATION POLICY

UT-PIC interns are encouraged to pursue academic and research related activities as an important aspect of professional development throughout their internship and career. UT-PIC faculty are to be informed of any research activities that interns are participating in during the intern year. It is expected interns will not identify themselves as representing UT-PIC on published works. If the research occurred as a direct product of the internship training program, the affiliation is with the site organization and approved by the Site Director and in compliance with the site's research/publication policies. Interns conducting research outside of the internship training can utilize their university as an affiliation.
